- 2009 **Signs and letters exhibition**- awareness of Moshiah and redemption . **The exhibit includes a Hebrew calendar**, with the months of the year written by Rabbi Y. Pizm, adapted to reflect the teachings of the Rebbe.
- 2010 **Complete Healing**: a course for health counselors and managers- **science biology, preventive medicine, natural nutrition, naturopathy, homeopathy**. This year course is recognized for credit by the ministries of health and education for teachers, doctors, health professionals, LD clinics which offer support to parents and pupils.
- 2011 **A vision to establish a medical, ecological village**: this village is planned as a planned center of healing. It will offer long-term acute and chronic patients medical attention, with special emphasis on a lifestyle conducive to assist healing.

2012 **Miracle oil: medicinal oil**

An amazing miracle, this oil was discovered with the help of the Rebbe's writings, and contains 13 different medicinal anti-inflammatory and anti-carcinogenic herbs. The oil led a growing number of people to radically change the way they want to manage their treatment, after the oil succeeded in putting my husband, Rabbi Y. Pizm back on his feet in one hour, during succot, 2012, after a serious attack of sciatica. Orthopedist claimed that he would need months of bed rest. With G-d's help I succeeded in making up the oil according to the Rebbe's equation, and discovered that in many cases it brings great relief and cure thank-G-d. The Rebbe instructed me to write a book on the topic, and this book was sent to 770 in New York. The Rebbe instructed me to distribute it throughout the country, baruch HaShem.

- 2013 Development of the topic of the medicinal oil. The ministry of health issues a license facilitating its development. The oil is manufactured by NSP.

Broadcast on channel 1 on the program "good health" on October 25, 2013. More than 50.000 listeners tuned in, hundreds called and cried. The telephone lines crashed.

Information about the medicinal oil: improvement and easing of physical problems and pain from scores of people.

The torch that will light the world!

After three years of intense study of the therapeutic oil with its thirteen medicinal herbs, we discovered that it prevents hundreds of serious ailments.

The oil works synergistically in the acute stage as an immediate prophylactic and even more so in chronic conditions: menopausal complications, hernias, in preventing asthma attacks, serious inflammations, and Vitiligo (white spots on skin). It is helpful when the thyroid is affected, critical for pain management, especially serious back pain. The oil relieves itchy skin and the results of poison ivy, and the like.

The oil was tested by many experts in the field of natural and conventional medicine: Dr. Mina Faran, world renowned Israeli biologist and medicinal plant expert, and David Kapach who helped in its development, and other highly respected researchers, physicians, and experts of world renown in the field of pharmacology and applied chemistry.

My grandfather was a well-known gynecologist who, during the early 1970s predicted that cancer would be the number one killer, especially breast cancer, and here we are with hundreds of older Jerusalem women who had refused to undergo mammography, got ill and suffered greatly. However, they were treated with between four to five bottles of the oil and reported immediate relief. They reported being capable of living their lives on a more balanced plain, and their ability to cope with life's challenges. Many were able to return to a normal life style.

The oil has become the first indicator for any activities where I counselled hundreds of women to use it after they heard me speak on Lev HaMedina radio before Passover, 2016. About one million people were interested in finding me.

I now understand the importance of the oil: G-d's gift and the Rebbe of Lubavitch's gift for me when I give my lectures and offer my treatments.
