A Call To Arms: Whoever is for HaShem...

Netanyahu and his colleagues' zigzagging ways leave no choice but to hoist a different flag to rally around. In spite of protestations of lack of choice and painful decisions, even Yaalon and Benny Begin side with Netanyahu!!!

The Netanyahu version of "The emperor's new clothes" and "The final solution" (sweetened by rightwing nationalist words, yet black leftist darkness deep in his heart) is leading the People of Israel down the garden path toward national suicide not only within the borders of the Land of Israel, but throughout the world, where the rising tide of anti-Semitism is out in the open.

Brothers! We must not tarry. We must protest, and be proactive. We must voice our standpoint loudly and clearly and find the way to implement it. Every second is crucial.
